

Industrial TH Precision Transmitter

For ambient conditions

Non contractual picture

Part nr. 12367

Presentation

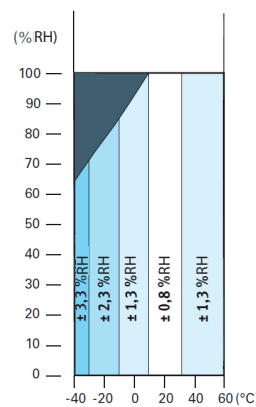

The Industrial TH Precision Transmitter for ambient conditions measures temperature and humidity. It is suitable for applications in HVAC, food and pharmaceutical industries, energy management in building services equipment.

It is compatible with the LoRa® SPY U recorder.

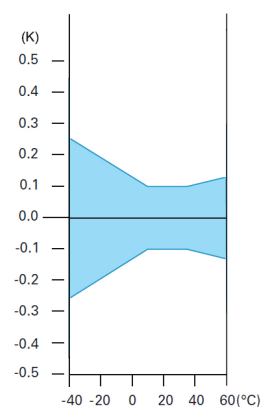

Technical features

Measurement range	-40 to +60°C 0 - 100% RH
Operating conditions	From -40 to +60°C
Stability on a long term basis	< 1%RH /year
Temperature sensor	PT100 class A
Output	0 -1 V x2
Power supply	3.3...5 VDC
Filter	Wire mesh filter
Protection index	IP65
Weight	10g
Dimensions	Ø15x83mm
Delivered with	User manual
