

Last Time Buy Notification

Schneider Electric is committed to ensuring that our customers and employees are up to date on changes to our portfolio.

In order to remain competitive in the market we must keep our product portfolio up to date and evolve it as market trends shift. Portfolio gaps have been identified and filled with new products that meet market requirements; while legacy products that are no longer competitive or have aging components are being rationalized.

The purpose of this notification is to inform you that the following models and associated parts will be removed from our product portfolio in 2020.

We will support spare parts based on material availability or suggest an equivalent if applicable.

Traditional – Pneumatic Foxboro 11, 12A, 13, 15, 40, 40x, 43AP, 43AX, E69F, E69P

Traditional (Pneumatic)	Last day ordering	
11	1/8/2020	No Replacements
12A	1/8/2020	No Replacements
13	1/8/2020	No Replacements
15	1/8/2020	No Replacements
40	1/8/2020	No Replacements
40x	1/8/2020	No Replacements
43AP	1/8/2020	No Replacements
43AX	1/8/2020	No Replacements
E69F	1/8/2020	IP26
E69P	1/8/2020	SRP981

The decision has been made to cease production of our Pneumatic offering known as our Traditional product line along with associated spare parts and accessories.

The last time buy opportunity for Traditional products will be offered until September 1, 2020. The plant will process orders as best they can with the expectation that orders will be completed and shipped prior to December 31, 2020.
