### **Electronic Temperature Sensors**

UTF2

for OEM applications

Temperature monitoring with Pt100-Sensor (Class B)

#### **Features**

Rugged and compact stainless steel construction, protection class IP65, high schock- and vibration stability

#### **Measuring Ranges**

-40 °C...+150 °C

#### **Applications**

Machine industry, mobile hydraulics and environmental technology, air conditioning control

#### **Technical Data**

| Sensor:   | Sensing resistor Pt100 acc.to<br>DIN IEC 751, (Class B, 4-wire) |  |
|---|---|--|
| Materials: Wetted Parts Housing (Electronics) Seals | Stainless steel 1.4301<br>Stainless steel 1.4301<br>FKM         |  |
| Protection class:                                   | IP65 plug   |  |
| Process connection:                                 | G 1/4 male, nut across flats 19mm                               |  |
| Proof Pressure:                                     | max. 200 bar, others on request                                 |  |

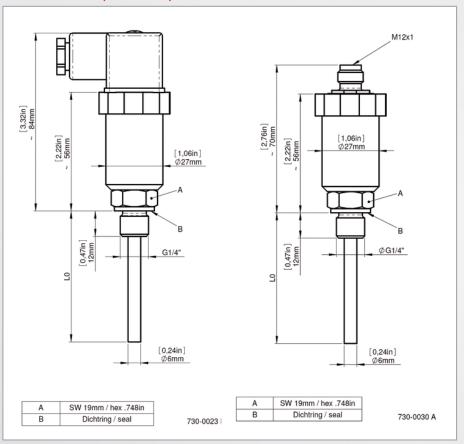

| Dimensions:            | see drawings      |
|------------------------|-------------------|
| Weight:                | 130 g             |
| Time constant:         | appr. 40 s        |
| Measuring current:     | max. 5 mA         |
| Electrical connection: | Plug 4-pin, M12x1 |
| Sensor length:         | 17 mm, 50 mm      |
| Sensor diameter:       | 6 mm              |
|                        |                   |
